# Methodology for IL-519 - West Central Illinois CoC

## Sheltered Population

### 1. What data source(s) was used to produce PIT counts of the sheltered population?

- HMIS
- Interviews with provider staff
- Case manager records

### 2. Were you able to collect the required information from all emergency shelters, safe havens, and transitional housing providers or did you collect data from a subset of these providers?

- A subset of providers gave the required information

#### 2a. How did you select the subset of providers?

- Providers were not selected randomly, and the selection was driven by convenience or expediency (e.g., providers that were willing to participate)

#### 2b. Did you adjust the information in some way (e.g., statistical adjustment or extrapolation) to account for all providers in the CoC?

No

### 3. Once the universe of providers was identified, did you collect the required information from all sheltered persons within those providers or did you collect the information from a subset of sheltered people?

- All sheltered people within those programs

### 4. What information or method(s) was used to de-duplicate the count of the sheltered population?

- No specific approach was used

### 5. What method(s) were used to obtain the highest quality count of your sheltered population?

- Reviewed HUD guidance and/or trainings on conducting a PIT count

- Written instructions to providers
- Written instructions to interviewers
- Trained providers on the data collection requirements/forms
- Trained interviewers on the data collection requirements/forms
- Reminded/followed-up with providers about the count to maximize participation
- Used survey or statistical experts to support the count
- Compared the counts to other internal data sources and resolved inconsistencies
- Compared the counts to last year's counts and explained the changes

**6. Did your approach to collecting PIT counts of sheltered populations differ from your approach to collecting PIT counts of sheltered subpopulations?**

No

**Sheltered Subpopulation**

**7. What data source(s) was used to produce PIT counts of the sheltered population?**

- HMIS
- Interviews with provider staff
- Case manager records

**8. Were you able to collect the required information from all emergency shelters, safe havens, and transitional housing providers or did you collect data from a subset of these providers?**

- A subset of providers gave the required information

**8a. How did you select the subset of providers?**

- Providers were not selected randomly, and the selection was driven by convenience or expediency (e.g., providers that were willing to participate)

**8b. Did you adjust the information in some way (e.g., statistical adjustment or extrapolation) to account for all providers in the CoC?**

No

**9. Once the universe of providers was identified, did you collect the required information from all sheltered persons within those providers or did you collect the information from a subset of sheltered people?**

- All sheltered people within those programs

**10. What information or method(s) was used to de-duplicate the count of the sheltered population?**

- No specific approach was used

**11. What method(s) were used to obtain the highest quality count of your sheltered population?**

- Reviewed HUD guidance and/or trainings on conducting a PIT count
- Written instructions to providers
- Written instructions to interviewers
- Trained providers on the data collection requirements/forms
- Trained interviewers on the data collection requirements/forms
- Reminded/followed-up with providers about the count to maximize participation
- Used survey or statistical experts to support the count
- Compared the counts to other internal data sources and resolved inconsistencies
- Compared the counts to last year's counts and explained the changes

## **Unsheltered Population**

**12. What method was used to count the unsheltered population during the PIT count?**

**13. How much of your community was canvassed for the unsheltered population count?**

- The whole community was canvassed (i.e., complete coverage)

**14. Once your geography was identified for the count, did you collect the required information from all persons encountered during the unsheltered count or a sample of persons?**

- All people encountered during the count

**15. What information or method(s) was used to de-duplicate the count of the unsheltered population?**

**16. What information or method(s) was used to produce an unduplicated count across your sheltered and unsheltered population?**

**17. What method(s) were used to obtain the highest quality count of your unsheltered population?**

**18. Did your approach to collecting PIT counts of unsheltered populations differ from your approach to collecting PIT counts of unsheltered subpopulations?**

### **Unsheltered Subpopulations**

**19. What method was used to count the unsheltered subpopulations during the PIT count?**

**20. How much of your community was canvassed for the unsheltered subpopulations count?**

- The whole community was canvassed (i.e., complete coverage)

**22. What information or method(s) was used to de-duplicate the count of the unsheltered subpopulations?**

**23. What information or method(s) was used to produce an unduplicated count across your sheltered and unsheltered subpopulation?**

**24. What method(s) were used to obtain the highest quality count of your unsheltered sub population?**

### **Annual Comparison**

**25. When compared to last year, please indicate whether the sheltered and unsheltered count increased, decreased, or stayed the same. Describe the specific factors that may have resulted in the increase, decrease, or no change.**

**25a. Compared to last year, the 2013 sheltered count:**

- Increased

**Explain:**

The PIT increased by 7 overall. The individuals in transitional housing remained the same. The individuals in emergency shelter increased by 7.

**25b. Compared to last year, the 2013 sheltered count:**

**Explain:**

**21. Once your geography was identified for the count, did you collect the required information from all persons encountered during the unsheltered count or a sample of persons?**

- All people encountered during the count
